

## ***LIGHTLY SEASONED QUARTET***

"Lightly Seasoned".... Why the name? You might ask, is this quartet spicy? Do they sing Salsa music? No such luck. They chose that name because they have been singing in the a cappella harmony style for quite a while... like collectively about 130 years. So indeed... seasoned they are. The lightly part... hmmm? That's questionable.

All are members of the International Barbershop Harmony Society, the Hall of Fame Chorus and baritone Greg is a founding and current member of the Men of Independence Chorus in Cleveland.

Tenor - Larry White not only boasts of his 34 years of singing close harmony, but is a real, live barber with an authentic barbershop (Larry's Barber - Styling) in downtown Wooster Ohio. Larry has sung in several quartets and has directed two barbershop choruses. Larry sings a mean version of "Shave and a Haircut - 2 bits".

Lead - George Alcorn, is a retired railroader and you oughta' hear him sing "I've been workin' on the railroad". He should be good since he's sung in more than 10 quartets and has been practicing harmony singing for 35 years.

Baritone - Greg Batchelor owns Ohio State Graphics, a full service print shop serving all of NE Ohio. But alas there are no songs about printers. That hasn't stopped Greg from singing lead and baritone in several area quartets.

Bass - Darryl Flinn can sing "Like a Good Neighbor, State Farm is there" and "Sweet Adeline" as he is retired from a long career in insurance, and served as Executive Director of the Barbershop Harmony Society. Darryl has sung all 4 parts in many quartets over long years.

Lightly Seasoned performs at a variety of shows and functions and specializes in harmonizing songs America loves to hear and sing. These four fellows promise to keep it interesting, keep it light and to keep it fun. Their mission is to entertain.
